

## **Message From the District Director**

Greetings District 8 Members!

I would like to take this opportunity to say Thank You.

It will be an honor and privilege to serve members of District 8 throughout the next two years. I truly appreciate all of the District 8 members who attended the District 8 meeting during the District 7-8 Conference in Salt Lake City, Utah, June 2-3 and their vote of support and confidence electing me the 2017-2019 District 8 Director. Thank you!

I was also honored to accept the results of the special meeting convened by District 8 State Presidents on July 31, 2017 electing me to fill the remaining director term due to the recent resignation of the District 8 Director.

A special thank you to Carrie Dickson, 2015-2017 District 8 Director, for her time and efforts on behalf of District 8 and supporting our members. We truly appreciate the work she has done and wish her the very best as she retires from the director position.

I will be calling on many District 8 members to volunteer to meet the needs of our district's members. These volunteers will serve as resources to units and members; to assist with our D8 website so that it is current and relevant; to develop ongoing communication through technology; to share unit, state, District 8 and NAP information; to provide direct support to members seeking RP and PRP status; to give guidance to new RPs and PRPs; and to develop and implement plans for membership retention and increasing your membership.

Exciting things will be happening in our district in the next two years and our time to plan for these events begins now. The 2019 District 8 Conference will be hosted by ASAP and NSAP will host the 2019 Biennium Convention in Las Vegas, Nevada.

It was a pleasure to meet many of our members in Chicago during the convention and at the D8 meeting. Please know that I will serve you to the best of my ability and will be always be available to you by email.

I look forward to working with all of you to make D8 the very best in NAP.

Sincerely,
